Index to Volume 21

1963

AUTHOR AND SUBJECT INDEX

A

Aaron, T. H., and Jampolsky, N. A.: A survey of teaching hospitals with regard to the recording of drug reactions, 256

Activities, reaginic, of ragweed-sensitive serum, Chromatographic separation of hemagglutination and (Edwin G. Brown and Herman Friedman), 17

Addition of glyceryl guaiacolate to oxtriphylline in chronic asthma: A double blind study (Donald L. Unger), 528

Adjunctive therapy in bronchial disorders, A new enzyme as (Ben C. Eisenberg), 466

Adverse reactions in 3 000 emulsion injections and introduction of a new nonmetallic emulsator (Merle S. Scherr), 388

Agar gel diffusion, Attempted laboratory correlation of clinical milk sensitivity by, and tanned cell hemagglutination (Richard K. Sheehan and Jerome Glaser), 76

Air in Indianapolis, Indiana, A weekly mold survey of the (Margaret Hotchkiss, Morris Scherago and Irvin Caplin), 563

Air-borne molds in southern and central Ontario, A collaborative study of (H. S. Barlow), 569

Air pollution and respiratory disease (Harry Heimann), 396

Allergens, food, Bio-assay of, II. Food-induced reactions of the heart rate of guinea pigs (Alsoph H. Corwin, Francis N. Dukes-Dobos, and Maravene Hamburger), 547

Allergens of low molecular weight, Humoral response to (Robert Shulman), 349

Allergic bronchial asthma and pulmonary infection due to aspergillus fumigatus treated by injections of emulsified allergen (John W. Argabrite, Marie B. Morrow, and George H. Meyer), 583

Allergic children, Significance of discoloration in the lower orbitopalpebral grooves in, (allergic shiners) (Meyer B. Marks), 26

Allergic conditions, Evaluation of histamine-gamma globulin (histaglobin) in the treatment of various (H. Harold Gelfand, Jules C. Cinder, Sidney F. Grant, and Maxwell Soiffer), 150

Allergic conditions, Treatment of, with methysergide (1-methyl-d-lysergic acid (+) butanolamide bimaleate), A new antiserotonin drug. A pilot study (Walter Pinsker and Kent H. Thayer), 200

Allergic granulomatosis and granulomatous-vascular syndromes (Jacob Churg), 619

Allergic implications of newer immunologic knowledge (Philip M. Gottlieb), 187

Allergic individuals, The use of an antidepressant drug in chronically,. A double blind study (Arthur A. Goldfarb and Felix Venutolo), 667

Allergic patients, Grass pollinosis: A review of its nature and treatment by emulsified extracts as exemplified in 1211, XXIII. A new look at some old values (Ethan Allan Brown), Part I, 265, Conclusion, 315

Allergic, respiratory, patients, Urinary determination of 5-hydroxy-indoleacetic acid, catabolite of serotonin, in normal subjects and (Jorge Raul Vaccarezza and Adolfo Bochi), 448

(Allergic shiners), Significance of discoloration in the lower orbitopalpebral grooves in allergic children (Meyer B. Marks), 26

Allergies, nasal, Evaluation of a long-acting oral antihistaminic decongestant (Rynatan®) for (Harry Kaplan, Henry Sherwood, and Joseph I. Epstein), 41

Allergy, Bronchial carcinoid—Report of a case with features of a food (James C. Breneman), 101

Allergy, Corticosteroid choice in (William C. Grater), 454

Allergy, Reflections on the impact of emulsion therapy in the practice of (Frank F. Furstenberg), 641

Allergy, Serotonin and a serotonin antagonist in (Frederick W. Grover), 233
Allergy to papaya tree (carica papaya linn) (D. N. Shivpuri and K. L. Dua), 139
Allergy, Trends and portents in (Mayer A. Green), 490
Alum-precipitated pyridine-linked ragweed pollen extract in saline with an emulsified ragweed pollen extract, A comparative study of a new (G. Everett Gaillard, Robert A. Mayers and Ruth Schellin), 145
Alum-precipitated pyridine pollen extract in saline (1), (2) alum-precipitated pyridine pollen extract in emulsion, (3) aqueous pollen extract in emulsion, A comparative study of, Ragweed pollinosis (G. Everett Gaillard, Robert A. Mayers, and Ruth Schellin), 210
(Amphetamine, Clemizole, Quercetin), Clinical trial of a multiphasic antihistaminic preparation (Jerome Miller), 692
Antidepressant drug, The use of an, in chronically allergic individuals. A double blind study (Arthur A. Goldfarb and Felix Venutolo), 667
Antigen, food, precipitins in sera of food-sensitive and normal children, Study of the significance of (Douglas E. Johnstone), 206
Antigen, Repository polyvalent insect, treatment for patients sensitive to hymenoptera —A clinical evaluation (G. Everett Gaillard, Robert A. Mayers and Ruth Schellin), 69
Antihistamine, Patient reliability in judging a single agent studied. Response to an (Jack C. Sallee), 48
Antihistamine prophylaxis, Repository pollen therapy. Placebo-controlled comparison of, with and without corticosteroid (Mayer A. Green), 308
Antihistaminic agents, Atopic dermatitis. III. The correct choice of (Leonard D. Grayson and Hilliard M. Shair), 168
Antihistaminic, long-acting oral, decongestant (Rynatan®) for nasal allergies, Evaluation of a (Harry Kaplan, Henry Sherwood and Joseph I. Epstein), 41
Antihistaminic, multiphasic, preparation, Clinical trial of, (Clemizole, Quercetin, Amphetamine) (Jerome Miller), 692
Antihistaminics, Steroids and, combined in long-term therapy of chronic bronchial asthma (M. M. El-Mehairy and N. El-Tarabichi), 10
Antiserotonin drug, Treatment of allergic conditions with methysergide (1-methyl-d-lysergic acid (+) butanolamide bimaleate), a new,. A pilot study (Walter Pinsker and Kent H. Thayer), 200
Antitussive preparation, Clinical evaluation of a new (S. M. Chernish, George Lewis, Bennett Kraft and Joseph Howell), 677
Aqueous pollen extract in emulsion (3), (1) alum-precipitated pyridine pollen extract in saline, (2) alum-precipitated pyridine pollen extract in emulsion, A comparative study of,. Ragweed pollinosis (G. Everett Gaillard, Robert A. Mayers and Ruth Schellin), 210
Argabrite, John W., Morrow, Marie B., and Meyer, George H.: Allergic bronchial asthma and pulmonary infection due to aspergillus fumigatus treated by injections of emulsified allergen, 583
Arlacel A, Chemical and biologic properties of,—A review (Byron S. Berlin), 82
Aspergillus fumigatus treated by injections of emulsified allergen, Allergic bronchial asthma and pulmonary infection due to (John W. Argabrite, Marie B. Morrow and George H. Meyer), 583
Asthma, allergic bronchial, and pulmonary infection due to aspergillus fumigatus treated by injections of emulsified allergen (John W. Argabrite, Marie B. Morrow and George H. Meyer), 583
Asthma, bronchial, Determination of the clinical significance of wool as an etiologic agent of, by means of provocative testing (Norman S. Fastman and Jerome Glaser), 1
Asthma, bronchial, Evaluation of a chlordiazepoxide, theophylline, ephedrine combination in the treatment of (Samuel Bloom and Harry Markow), 601
Asthma, bronchial, Librium-theophylline-ephedrine compound in,. A double blind study in 100 patients (Henry T. Friedman), 163
Asthma, bronchial, Recurrent respiratory infections complicating, A double blind study in prophylaxis (R. J. Moriarty and H. Janasz), 424
Asthma, bronchial, The role of respiratory infection in (Harris Hosen), 156
Asthma, chronic, Addition of glyceryl guaiacolate to oxtriphylline in: A double blind study (Donald L. Unger), 528
Asthma, chronic bronchial, Steroids and antihistaminics combined in long-term therapy of (M. M. El-Mehairy and N. El-Tarabichi), 10
Asthma, Constitutional factors in (Horace S. Baldwin), 637
Atopic dermatitis III. The correct choice of antihistaminic agents (Leonard D. Grayson and Hilliard M. Shair), 168

Attempted laboratory correlation of clinical milk sensitivity by agar gel diffusion and tanned cell hemagglutination (Richard K. Sheehan and Jerome Glaser), 76

Autoimmune disease? The post-myocardial infarction syndrome: An (Albert M. Ziffer and S. D. Klotz), 698

B

Baldwin, Horace S.: Constitutional factors in asthma, 637

Barlow, H. S.: A collaborative study of air-borne molds in southern and central Ontario, 569

Baughman, Richard D. and Jillson, Otis F.: Seven specific types of urticaria. With special reference to delayed persistent dermographism, 248

Berlin, Byron S.: Chemical and biologic properties of Arlacel A—A review, 82

Berman, Bernard A.: Migraine in children, 91

Bio-assay of food allergens. II. Food-induced reactions of the heart rate of guinea pigs (Alsoph H. Corwin, Francis N. Dukes-Dobos, and Maravene Hamburger), 547

Biologic properties of Arlacel A, Chemical and, —A review (Byron S. Berlin), 82

Bloom, Samuel and Markow, Harry: Evaluation of a chlordiazepoxide, theophylline, ephedrine combination in the treatment of bronchial asthma, 601

Bochi, Adolfo and Vaccarezza, Jorge Raul: Urinary determination of 5-hydroxy-indoleacetic acid, catabolite of serotonin, in normal subjects and respiratory allergic patients, 448

Brenemen, James C.: Bronchial carcinoid—Report of a case with features of a food allergy, 101

Bronchial, Allergic, asthma and pulmonary infection due to aspergillus fumigatus treated by injections of emulsified allergen (John W. Argabrite, Marie B. Morrow, and George H. Meyer), 583

Bronchial asthma, chronic, Steroids and antihistaminics combined in long-term therapy of (M. M. El-Mehairy and N. El-Tarabichi), 10

Bronchial asthma, Determination of the clinical significance of wool as an etiologic agent of, by means of provocative testing (Norman S. Fastman and Jerome Glaser), 1

Bronchial asthma, Evaluation of a chlordiazepoxide, theophylline, ephedrine combination in the treatment of (Samuel Bloom and Harry Markow), 601

Bronchial asthma, Librium-theophylline-ephedrine compound in, A double blind study in 100 patients (Henry T. Friedman), 163

Bronchial asthma, Recurrent respiratory infections complicating, A double blind study in prophylaxis (R. J. Moriarty and H. Janasz), 424

Bronchial asthma, The role of respiratory infection in (Harris Hosen), 156

Bronchial carcinoid—Report of a case with features of a food allergy (James C. Brenemen), 101

Bronchial disorders, A new enzyme as adjunctive therapy in (Ben C. Eisenberg), 466

Bronchodilating drug, Metaproterenol, A new, —Clinical report (S. William Simon and William H. Lipman), 260

Bronstein, Seymour B., and Townley, Robert G.: A double blind clinical evaluation of glyceryl guaiacolate, 683

Brown, Edwin G. and Friedman, Herman: Chromatographic and reaginic activities of ragweed-sensitive serum, 17

Brown, Ethan Allan: Grass pollinosis: A review of its nature and treatment by emulsified extracts as exemplified in 1211 allergic patients, XXIII. A new look at some old values, Part I, 265, Conclusion, 315

Brown, Ethan Allan: Ragweed pollinosis: The treatment of pollinosis by means of emulsified extracts XXVII. A study of 1809 patients studied for the 1962 ragweed pollen season, Part I, 432, Conclusion, 505

C

Caplin, Irvin, Haynes, John T., and Lang, Eric: Comparison of the release of I^{131} from saline, repository, and vitellinic injection sites, 380

Caplin, Irvin, Scherago, Morris, and Hotchkiss, Margaret: A weekly mold survey of the air in Indianapolis, Indiana, 563

Caplin, Irvin: The causes and prevention of problems encountered in emulsion therapy, 593

Carcinoid, Bronchial—Report of a case with features of a food allergy (James C. Brenemen), 101
(Carica Papaya Linn), Allergy to papaya tree (D. N. Shivpuri and K. L. Dua), 139
Catabolite of serotonin, in normal subjects and respiratory allergic patients, Urinary determination of 5-hydroxy-indoleacetic acid (Jorge Raul Vaccarezza and Adolf Bochi), 448
Causes and prevention of problems encountered in emulsion therapy, The (Irvin Caplin), 593
Cell, tanned, hemagglutination, Attempted laboratory correlation of clinical milk sensitivity by agar gel diffusion and (Richard K. Sheehan and Jerome Glaser), 76
Cellulose-acetate membrane as a medium for demonstrating milk precipitins. Application to selected patients (Thomas L. Nelson, Charles T. Greene, and Garland Stroup), 629
Chemical and biologic properties of Arlacel A—A Review (Byron S. Berlin), 82
Chernish, S. M., Lewis, George, Kraft, Bennett, and Howell, Joseph: Clinical evaluation of a new antitussive preparation, 677
Children, allergic (allergic shiners), Significance of discoloration in the lower orbitopalpebral grooves in (Meyer B. Marks), 26
Children, Migraine in (Bernard A. Berman), 91
Children, Study of the significance of food antigen precipitins in sera of food-sensitive and normal (Douglas E. Johnstone), 206
Chlordiazepoxide, theophylline, ephedrine combination in the treatment of bronchial asthma, Evaluation of a (Samuel Bloom and Harry Markow), 601
Cholinergic entity, Rhinitis induced by rauwolfia: A (Enrique Mathov and Juan Misenta), 481
Chromatographic separation of hemagglutination and reaginic activities of ragweed-sensitive serum (Edwin G. Brown and Herman Friedman), 17
Churg, Jacob: Allergic granulomatosis and granulomatous-vascular syndromes, 619
Cinder, Jules C., Gelfand, H. Harold, Grant, Sidney F., and Soiffer, Maxwell: Evaluation of histamine-gamma globulin (histaglobin) in the treatment of various allergic conditions, 150
(Clemizole, Quercetin, Amphetamine), Clinical trial of a multiphasic antihistaminic preparation (Jerome Miller), 692
Clinical, A double blind, evaluation of glyceryl guaiacolate (Robert G. Townley and Seymour B. Bronstein), 683
Clinical evaluation of a new antitussive preparation (S. M. Chernish, George Lewis, Bennett Kraft and Joseph Howell), 677
Clinical experience with emulsion therapy using lyophilized endo purified house dust concentrate (Jonathan Forman and N. M. Newport), 303
Clinical significance of wool as an etiologic agent of bronchial asthma by means of provocative testing, Determination of the (Norman S. Fastman and Jerome Glaser), 1
Clinical studies with feather dust (Lawrence J. Halpin and Homer E. Prince), 577
Clinical trial of a multiphasic antihistaminic preparation (Clemizole, Quercetin, Amphetamine) (Jerome Miller), 692
Collaborative study of air-borne molds in southern and central Ontario, A (H. S. Barlow), 569
Commercial extracts, A comparison of skin-testing with natural foods and (Barry M. Josephson and Jerome Glaser), 33
Comparison of the release of I^{131} from saline, repository, and vitellenic injection sites (Irvin Caplin, John T. Haynes, and Eric Lang), 380
Comparative study of, A, (1) alum-precipitated pyridine pollen extract in saline, (2) alum-precipitated pyridine pollen extract in emulsion, (3) aqueous pollen extract in emulsion, ragweed pollinosis (G. Everett Gaillard, Robert A. Mayers, and Ruth Schellin), 210
Comparative study of a new alum-precipitated pyridine-linked ragweed pollen extract in saline with an emulsified ragweed pollen extract, A (G. Everett Gaillard, Robert A. Mayers, and Ruth Schellin), 145
Compound, Librium-theophylline-ephedrine, in bronchial asthma. A double blind study in 100 patients (Henry T. Friedman), 163
Constitutional factors in asthma (Horace S. Baldwin), 637
Corticosteroid choice in allergy (William C. Grater), 454
Corticosteroid, Repository pollen therapy. Placebo-controlled comparison of antihistaminic prophylaxis with and without (Mayer A. Green), 308
Corwin, Alsoph H., Dukes-Dobos, Francis N. and Hamburger, Maravene: Bio-assay of food allergens. II. Food-induced reactions of the heart rate of guinea pigs, 547
Cyproheptadine, A serotonin antagonist. II. The treatment of vascular-type headache and pruritus (Jerome Miller), 588

D

Decongestant for nasal allergies, a long-acting oral antihistaminic, (Rynatan®), Evaluation of (Harry Kaplan, Henry Sherwood and Joseph I. Epstein), 41
Demerol, A severe systemic reaction to, —Case report (Kenneth J. Johnson), 408
Dermatitis, Atopic, III. The correct choice of antihistaminic agents (Leonard D. Grayson and Hilliard M. Shair), 168
Dermographism, Seven specific types of urticaria. With special reference to delayed persistent (Richard D. Baughman and Otis F. Jillson), 248
Determination of the clinical significance of wool as an etiologic agent of bronchial asthma by means of provocative testing (Norman S. Fastman and Jerome Glaser), 1
Diffusion, agar gel, Attempted laboratory correlation of clinical milk sensitivity by, and tanned cell hemagglutination (Richard K. Sheehan and Jerome Glaser), 76
Discoloration in the lower orbitopalpebral grooves in allergic children (allergic shiners), Significance of (Meyer B. Marks), 26
Disease, respiratory, Air pollution and (Harry Heimann), 396
Disease, The post-myocardial infarction syndrome: An autoimmune? (Albert M. Ziffer and S. D. Klotz), 698
Double blind clinical evaluation of glyceryl guaiacolate, A (Robert G. Townley and Seymour B. Bronstein), 683
Double blind study, A.: Addition of glyceryl guaiacolate to oxtriphylline in chronic asthma (Donald L. Unger), 528
Double blind study in 100 patients, A., Librium-theophylline-ephedrine compound in bronchial asthma (Henry T. Friedman), 163
Double blind study in prophylaxis, A. Recurrent respiratory infections complicating bronchial asthma (R. J. Moriarty and H. Janasz), 424
Drug, antidepressant, in chronically allergic individuals, The use of an, A double blind study (Arthur A. Goldfarb and Felix Venutolo), 667
Drug, antiserotonin, Treatment of allergic conditions with methysergide (1-methyl-d-lysergic acid (+) butanolamide bimaleate), a new, A pilot study (Walter Pinsker and Kent H. Thayer), 200
Drug, bronchodilating, Metaproterenol, A new, —Clinical report (S. William Simon and William H. Lipman), 260
Drug reactions, A survey of teaching hospitals with regard to the recording of (T. H. Aaron and N. A. Jampolsky), 256
Dua, K. L., and Shivpuri, D. N.: Allergy to Papaya tree (Carica Papaya Linn), 139
Dukes-Dobos, Francis N., Corwin, Alsoph H., and Hamburger, Maravene: Bio-assay of food allergens. II. Food induced reactions of the heart rate of guinea pigs, 547
Dust, feather, Clinical studies with (Lawrence J. Halpin and Homer E. Prince), 577
Dust, house, concentrate, Clinical experience with emulsion therapy using lyophilized endo purified (Jonathan Forman and N. M. Newport), 303
Dwarf ragweed fraction, Hyposensitization studies with purified (Morris A. Kaplan, Robert H. Spitzer, Arnold A. Gutman and Philip K. Kalayil), 494

E

Eisenberg, Ben C.: A new enzyme as adjunctive therapy in bronchial disorders, 466
El-Mehairy, M. M. and El-Tarabichi, N.: Steroids and antihistaminics combined in long-term therapy of chronic bronchial asthma, 10
El-Tarabichi, N. and El-Mehairy, M. M.: Steroids and antihistaminics combined in long-term therapy of chronic bronchial asthma, 10
Emulsator, non-metallic, Adverse reactions in 3 000 emulsion injections and introduction of a new (Merle S. Scherr), 388
Emulsified allergen, Allergic bronchial asthma and pulmonary infection due to aspergillus fumigatus treated by injections of (John W. Argabrite, Marie B. Morrow, George H. Meyer), 583
Emulsified extracts, Grass pollinosis: A review of its nature and treatment by, as exemplified in 1211 allergic patients, XXIII. A new look at some old values (Ethan Allan Brown), Part I, 265, Conclusion, 315
Emulsified extracts, Ragweed pollinosis: The treatment of pollinosis by means of, XXVII. A study of 1809 patients studied for the 1962 ragweed pollen season (Ethan Allan Brown), Part I, 432, Conclusion, 505
Emulsified ragweed pollen extract, A comparative study of a new alum-precipitated pyridine-linked ragweed pollen extract in saline with an (G. Everett Gaillard, Robert A. Mayers, and Ruth Schellin), 145

Emulsion injections, Adverse reactions in 3 000, and introduction of a new non-metallic emulsator (Merle S. Scherr), 388

Emulsion: Ragweed pollinosis. A comparative study of (1) alum-precipitated pyridine pollen extract in saline, (2) alum-precipitated pyridine pollen extract in emulsion, (3) aqueous pollen extract in emulsion (G. Everett Gaillard, Robert A. Mayers, Ruth Schellin), 210

Emulsion, Venom sac—Preliminary report (G. Everett Gaillard, Robert A. Mayers and Ruth Schellin), 378

Emulsion therapy in a large medical group—II. Experience with (Isidore Mechaneck), 370

Emulsion therapy in the practice of allergy, Reflections on the impact of (Frank F. Furstenberg), 641

Emulsion therapy, The causes and prevention of problems encountered in (Irvin Caplin), 593

Emulsion therapy using lyophilized endo purified house dust concentrate, Clinical experience with (Jonathan Forman and N. M. Newport), 303

Enzyme as adjunctive therapy in bronchial disorders, A new (Ben C. Eisenberg), 466

Ephedrine, chlordiazepoxide, theophylline combination in the treatment of bronchial asthma, Evaluation of a (Samuel Bloom and Harry Markow), 601

Ephedrine, Librium-theophylline-, compound in bronchial asthma. A double blind study in 100 patients (Henry T. Friedman), 163

Epstein, Joseph I., Kaplan, Harry, and Sherwood, Henry: Evaluation of a long-acting oral antihistaminic decongestant (Rynatan®) for nasal allergies, 41

Etiologic agent of bronchial asthma by means of provocative testing, Determination of the clinical significance of wool as an (Norman S. Fastman and Jerome Glaser), 1

Evaluation, clinical, a double blind, of glyceryl guaiacolate (Robert G. Townley and Seymour B. Bronstein), 683

Evaluation, Clinical, of a new antitussive preparation (S. M. Chernish, George Lewis, Bennett Kraft and Joseph Howell), 677

Evaluation of a chlordiazepoxide, theophylline, ephedrine combination in the treatment of bronchial asthma (Samuel Bloom and Harry Markow), 601

Evaluation of a long-acting oral antihistaminic decongestant (Rynatan®) for nasal allergies (Harry Kaplan, Henry Sherwood, and Joseph I. Epstein), 41

Evaluation of histamine-gamma globulin (histaglobin) in the treatment of various allergic conditions (H. Harold Gelfand, Jules C. Cinder, Sidney F. Grant, and Maxwell Soiffer), 150

Experience with emulsion therapy in a large medical group—II (Isidore Mechaneck), 370

Extracts, commercial, A comparison of skin-testing with natural foods and (Barry M. Josephson and Jerome Glaser), 33

Extracts, emulsified, Grass pollinosis: A review of its nature and treatment by, as exemplified in 1211 allergic patients, XXIII. A new look at some old values (Ethan Allan Brown), Part I, 265, Conclusion, 315

Extracts, emulsified, Ragweed pollinosis: The treatment of pollinosis by means of, XXVII. A study of 1809 patients studied for the 1962 ragweed pollen season (Ethan Allan Brown), Part I, 432, Conclusion, 505

Extract, in saline with an emulsified ragweed pollen extract, A comparative study of a new alum-precipitated pyridine-linked ragweed pollen (G. Everett Gaillard, Robert A. Mayers and Ruth Schellin), 145

F

Fastman, Norman S. and Glaser, Jerome: Determination of the clinical significance of wool as an etiologic agent of bronchial asthma by means of provocative testing, 1

Feather dust, Clinical studies with (Lawrence J. Halpin and Homer E. Prince), 577

5-hydroxy-indoleacetic acid, catabolite of serotonin, in normal subjects and respiratory allergic patients, Urinary determination of (Jorge Raul Vaccarezza and Adolfo Bochi), 448

Food allergens, Bio-assay of, II. Food-induced reactions of the heart rate of guinea pigs (Alsoph H. Corwin, Francis N. Dukes-Dobos and Maravene Hamburger), 547

Food antigen precipitins in sera of food-sensitive and normal children, Study of the significance of (Douglas E. Johnstone), 206

Food: Bronchial carcinoid—Report of a case with features of a, allergy (James C. Brenemen), 101
Foods, natural, and commercial extracts, A comparison of skin-testing with (Barry M. Josephson and Jerome Glaser), 33
Forman, Jonathan and Newport, N. M.: Clinical experience with emulsion therapy using lyophilized endo purified house dust concentrate, 303
Friedman, Herman and Brown, Edwin G.: Chromatographic and reaginic activities of ragweed-sensitive serum, 17
Friedman, Henry T.: Librium-theophylline-ephedrine compound in bronchial asthma —A double blind study in 100 patients, 163
Furstenberg, Frank F.: Reflections on the impact of emulsion therapy in the practice of allergy, 641

Hormonal influences on immune mechanisms (Abraham White), 417
Hosen, Harris: The role of respiratory infection in bronchial asthma, 156
Hotchkiss, Margaret, Scherago, Morris and Caplin, Irvin: A weekly mold survey of air in Indianapolis, Indiana, 563
House dust concentrate, Clinical experience with emulsion therapy using lyophilized endo purified (Jonathan Forman and N. M. Newport), 303
Howell, Joseph, Chernish, S. M., Kraft, Bennett and Lewis, George: Clinical evaluation of a new antitussive preparation, 677
Humoral response to allergens of low molecular weight (Robert Shulman), 349
Hymenoptera, Repository polyvalent insect antigen treatment for patients sensitive to,—A clinical evaluation (G. Everett Gaillard, Robert A. Mayers and Ruth Schellin), 69
Hyposensitization studies with a purified dwarf ragweed fraction (Morris A. Kaplan, Robert H. Spitzer, Arnold A. Gutman and Philip K. Kalayil), 494

I

I^{131}, the release of, from saline, repository, and vitellinic injection sites, A comparison of (Irvin Caplin, John T. Haynes and Eric Lang), 380
Immune mechanisms, Hormonal influences on (Abraham White), 417
Immunologic knowledge, Allergic implications of newer (Philip M. Gottlieb), 187
Infarction, The post-myocardial, syndrome: An autoimmune disease? (Albert M. Ziffer and S. D. Klotz), 698
Infection, pulmonary, due to aspergillus fumigatus treated by injections of emulsified allergen, Allergic bronchial asthma and (John W. Argabrite, Marie B. Morrow and George H. Meyer), 583
Infection, respiratory, in bronchial asthma, The role of (Harris Hosen), 156
Infections, Recurrent respiratory, complicating bronchial asthma. A double blind study in prophylaxis (R. J. Moriarty and H. Janasz), 424
Injections, emulsion, Adverse reactions in 3 000, and introduction of a new non-metallic emulsator (Merle S. Scherr), 388
Injection sites, A comparison of the release of I^{131} from saline, repository, and vitellinic (Irvin Caplin, John T. Haynes and Eric Lang), 380

Injections of emulsified allergen, Allergic bronchial asthma and pulmonary infection due to aspergillus fumigatus treated by (John W. Argabrite, Marie B. Morrow and George H. Meyer), 583
Insect antigen, Repository polyvalent, treatment for patients sensitive to hymenoptera —A clinical evaluation (G. Everett Gaillard, Robert A. Mayers and Ruth Schellin), 69
Introduction of a new non-metallic emulsator, Adverse reactions in 3 000 emulsion injections and (Merle S. Scherr), 388

Mechaneck, Isidore: Experience with emulsion therapy in a large medical group—II, 370

Medium for demonstrating milk precipitins, Cellulose-acetate membrane as a, Application to selected patients (Thomas L. Nelson, Charles T. Greene and Garland Stroup), 629

Metaproterenol—A new bronchodilating drug. Clinical report (S. William Simon and William H. Lipman), 260

Methysergide (1-methyl-d-lysergic acid (+) butanolamide bimaleate), a new antiserotonin drug, Treatment of allergic conditions with, A pilot study (Walter Pinsker and Kent H. Thayer), 200

Meyer, George H., Argabrite, John W. and Morrow, Marie B.: Allergic bronchial asthma and pulmonary infection due to aspergillus fumigatus treated by injections of emulsified allergen, 583

Migraine in children (Bernard A. Berman), 91

Miller, Jerome: A serotonin antagonist, cyproheptadine. II. The treatment of vascular-type headache and pruritus, 588

Miller, Jerome: Clinical trial of a multiphasic antihistaminic preparation (Clemizole, Quercetin, Amphetamine), 692

Milk precipitins, Cellulose-acetate membrane as a medium for demonstrating, Application to selected patients (Thomas L. Nelson, Charles T. Greene, and Garland Stroup, 629

Milk sensitivity, Attempted laboratory correlation of clinical, by agar gel diffusion and tanned cell hemagglutination (Richard K. Sheehan and Jerome Glaser), 76

Misenta, Juan and Mathov, Enrique: Rhinitis induced by rauwolfia: A cholinergic entity, 481

Mold, A weekly, survey of the air in Indianapolis, Indiana (Margaret Hotchkiss, Morris Scherago, and Irvin Caplin), 563

Molds, air-borne, A collaborative study of, in southern and central Ontario (H. S. Barlow), 569

Moriarty, R. J. and Janasz, H.: Recurrent respiratory infections complicating bronchial asthma. A double blind study in prophylaxis, 424

Morrow, Marie B., Argabrite, John W. and Meyer, George H.: Allergic bronchial asthma and pulmonary infection due to aspergillus fumigtatus treated by injections of emulsified allergen, 583

Multiphasic, antihistaminic preparation, Clinical trial of a, (Clemizole, Quercetin, Amphetamine) (Jerome Miller), 692

N

Nasal allergies, Evaluation of a long-acting oral antihistaminc decongestant (Rynatan®) for (Harry Kaplan, Henry Sherwood and Joseph I. Epstein), 41

Natural foods and commercial extracts, A comparison of skin-testing with (Barry M. Josephson and Jerome Glaser), 33

Nelson, Thomas L., Greene, Charles I. and Stroup, Garland: Cellulose-acetate membrane as a medium for demonstrating milk precipitins. Application to selected patients, 629

New enzyme as adjunctive therapy in bronchial disorders, A (Ben C. Eisenberg), 466
Newport, N. M. and Forman, Jonathan: Clinical experience with emulsion therapy using lyophilized endo purified house dust concentrate, 303
Non-metallic emulsator, Adverse reactions in 3 000 emulsion injections and introduction of a new (Merle S. Scherr), 388

O

Oral, long-acting, antihistaminic decongestant (Rynatan®) for nasal allergies, Evaluation of a (Harry Kaplan, Henry Sherwood and Joseph I. Epstein), 41
Orbitopalpebral, lower, grooves in allergic children (allergic shiners), Significance of discoloration in the (Meyer B. Marks), 26
Oxtriphylline, Addition of glyceryl guaiacolate to, in chronic asthma: A double blind study (Donald L. Unger), 528

P

Papaya tree, Allergy to, (carica papaya linn) (D. N. Shivpuri and K. L. Dua), 139
Patient reliability in judging a single agent studied: Response to an antihistamine (Jack C. Sallee), 48
Persistent dermographism, delayed. With special reference to, Seven specific types of urticaria (Richard D. Baughman and Otis F. Jillson), 248
Photographing hemagglutination reactions, A technique for (John P. McGovern and Reuben G. Wagelie), 312
Pinsker, Walter and Thayer, Kent H.: Treatment of allergic conditions with methysergide (1-methyl-d-lysergic acid (+) butanolamide bimaleate), a new antiserotonin drug. A pilot study, 200
Placebo-controlled comparison of antihistamine prophylaxis with and without corticosteroid, Repository pollen therapy (Mayer A. Green), 308
Pollen, Lamb's quarters (Richard B. Homan), 647
Pollen, A comparative study of a new alum-precipitated pyridine-linked ragweed, extract in saline with an emulsified ragweed pollen extract (G. Everett Gaillard, Robert A. Mayers, and Ruth Schellin), 145
Pollen therapy, repository. Placebo-controlled comparison of antihistamine prophylaxis with and without corticosteroid (Mayer A. Green), 308
Pollinosis, A study of skin reactions in (Kenneth J. Johnson), 650
Pollinosis, Grass: A review of its nature and treatment by emulsified extracts as exemplified in 1211 allergic patients, XXIII. A new look at some old values (Ethan Allan Brown), Part 1, 265, Conclusion, 315
Pollinosis, Ragweed, A comparative study of (1) alum-precipitated pyridine pollen extract in saline, (2) alum-precipitated pyridine pollen extract in emulsion, (3) aqueous pollen extract in emulsion (G. Everett Gaillard, Robert A. Mayers, Ruth Schellin), 210
Pollinosis, Ragweed: The treatment of pollinosis by means of emulsified extracts XXVII. A study of 1809 patients studied for the 1962 ragweed pollen season (Ethan Allan Brown), Part I, 432, Conclusion, 505
Pollution, Air, and respiratory disease (Harry Heimann), 396
Post-myocardial infarction syndrome, The: An autoimmune disease? (Albert M. Ziffer and S. D. Klotz), 698
Precipitins, food antigen, in sera of food-sensitive and normal children, Study of the significance of (Douglas E. Johnstone), 206
Precipitins, milk, Cellulose-acetate membrane as a medium for demonstrating, Application to selected patients (Thomas L. Nelson, Charles T. Greene and Garland Stroup), 629
Prevention of problems encountered in emulsion therapy, The causes and (Irvin Caplin), 593
Prince, Homer E. and Halpin, Lawrence J.: Clinical studies with feather dust, 577
Prophylaxis, A double blind study in, Recurrent respiratory infections complicating bronchial asthma (R. J. Moriarty and H. Janasz), 424
Prophylaxis, antihistamine, Placebo-controlled comparison of, with and without corticosteroid, Repository pollen therapy (Mayer A. Green), 308
Provocative testing, Determination of the clinical significance of wool as an etiologic agent of bronchial asthma by means of (Norman S. Fastman and Jerome Glaser), 1

Pruritus, The treatment of vascular-type headache and, A serotonin antagonist, cyproheptadine. II. (Jerome Miller), 588
Pulmonary infection due to aspergillus fumigatus treated by injections of emulsified allergen, Allergic bronchial asthma and (John W. Argabrite, Marie B. Morrow and George H. Meyer), 583
Purified dwarf ragweed fraction, Hyposensitization studies with (Morris A. Kaplan, Robert H. Spitzer, Arnold A. Gutman and Philip K. Kalayil), 494
Pyridine-linked ragweed pollen extract in saline with an emulsified ragweed pollen extract, A comparative study of a new alum-precipitated (G. Everett Gaillard, Robert A. Mayers and Ruth Schellin), 145

Q

(Quercetin, Amphetamine, Clemizole), Clinical trial of a multiphasic antihistaminic preparation (Jerome Miller), 692

R

Ragweed fraction, purified dwarf, Hyposensitization studies with (Morris A. Kaplan, Robert H. Spitzer, Arnold A. Gutman and Philip K. Kalayil), 494
Ragweed: A comparative study of a new alum-precipitated pyridine-linked, pollen extract in saline with an emulsified ragweed pollen extract (G. Everett Gaillard, Robert A. Mayers and Ruth Schellin), 145
Ragweed pollinosis: The treatment of pollinosis by means of emulsified extracts XXVII. A study of 1809 patients studied for the 1962 ragweed pollen season (Ethan Allan Brown), Part I, 432, Conclusion, 505
Ragweed Pollinosis: A comparative study of (1) alum-precipitated pyridine pollen extract in saline, (2) alum-precipitated pyridine pollen extract in emulsion, (3) aqueous pollen extract in emulsion (G. Everett Gaillard, Robert A. Mayers, Ruth Schellin), 210
Ragweed-sensitive serum, Chromatographic separation of hemagglutination and reaginic activities of (Edwin G. Brown and Herman Friedman), 17
Rauwolfia, Rhinitis induced by, A cholinergic entity (Enrique Mathov and Juan Misenta), 481
Reaction, A severe systemic, to demerol—Case report (Kenneth J. Johnson), 408
Reactions, Adverse, in 3 000 emulsion injections and introduction of a new non-metallic emulsator (Merle S. Scherr), 388
Reactions, A technique for photographing hemagglutination (John P. McGovern and Reuben G. Wagelie), 312
Reactions, Food-induced, of the heart rate of guinea pigs. Bio-assay of food allergens. II. (Alsoph H. Corwin, Francis N. Dukes-Dobos and Maravene Hamburger), 547
Reactions, skin, in pollinosis, A study of (Kenneth J. Johnson), 650
Reaginic activities of ragweed-sensitive serum, Chromatographic separation of hemagglutination and (Edwin G. Brown and Herman Friedman), 17
Recurrent respiratory infections complicating bronchial asthma. A double blind study in prophylaxis (R. J. Moriarty and H. Janasz), 424
Reflections on the impact of emulsion therapy in the practice of allergy (Frank F. Furstenberg), 641
Repository and vitellinic injection sites, A comparison of the release of I^{131} from saline (Irvin Caplin, John T. Haynes and Eric Lang), 380
Repository pollen therapy. Placebo-controlled comparison of antihistamine prophylaxis with and without corticosteroid (Mayer A. Green), 308
Repository polyvalent insect antigen treatment for patients sensitive to hymenoptera—A clinical evaluation (G. Everett Gaillard, Robert A. Mayers and Ruth Schellin), 69
Respiratory allergic patients, Urinary determination of 5-hydroxy-indoleacetic acid, catabolite of serotonin, in normal subjects and (Jorge Raul Vaccarezza and Adolfo Bochi), 448
Respiratory disease, Air pollution and (Harry Heimann), 396
Respiratory infection in bronchial asthma, The role of (Harris Hosen), 156
Respiratory, Recurrent, infections complicating bronchial asthma. A double blind study in prophylaxis (R. J. Moriarty and H. Janasz), 424

Response, Humoral, to allergens of low molecular weight (Robert Shulman), 349
Response to an antihistamine, Patient reliability in judging a single agent studied (Jack C. Sallee), 48
Rhinitis induced by rauwolfia: A cholinergic entity (Enrique Mathov and Juan Misenta), 481
Role of respiratory infection in bronchial asthma, The (Harris Hosen), 156
(Rynatan®), a long-acting oral antihistaminic decongestant for nasal allergies, Evaluation of (Harry Kaplan, Henry Sherwood and Joseph I. Epstein), 41

S

Saline, A comparative study of a new alum-precipitated pyridine-linked ragweed pollen extract in, with an emulsified ragweed pollen extract (G. Everett Gaillard, Robert A. Mayers and Ruth Schellin), 145
Saline, repository, and vitellinic injection sites, A comparison of the release of I^{131} from (Irvin Caplin, John T. Haynes and Eric Lang), 380
Sallee, Jack C.: Patient reliability in judging a single agent studied: Response to an antihistamine, 48
Schellin, Ruth, Gaillard, G. Everett, and Mayers, Robert A.: Ragweed pollinosis: A comparative study of (1) alum-precipitated pyridine pollen extract in saline, (2) alum-precipitated pyridine pollen extract in emulsion, (3) aqueous pollen extract in emulsion, 210
Schellin, Ruth, Gaillard, G. Everett, and Mayers, A.: A comparative study of a new alum-precipitated pyridine-linked ragweed pollen extract in saline with an emulsified ragweed pollen extract, 145
Schellin, Ruth, Gaillard, G. Everett, and Mayers, Robert A.: Repository polyvalent insect antigen treatment for patients sensitive to hymenoptera—A clinical evaluation, 69
Schellin, Ruth, Gaillard, G. Everett, and Mayers, Robert A.: Venom sac emulsion—Preliminary report, 378
Scherago, Morris, Hotchkiss, Margaret and Caplin, Irvin: A weekly mold survey of the air in Indianapolis, Indiana, 563
Scherr, Merle S.: Adverse reactions in 3 000 emulsion injections and introduction of a new non-metallic emulsator, 388
Sensitivity, milk, Attempted laboratory correlation of clinical, by agar gel diffusion and tanned cell hemagglutination (Richard K. Sheehan and Jerome Glaser), 76
Separation, Chromatographic, of hemagglutination and reaginic activities of ragweed-sensitive serum (Edwin G. Brown and Herman Friedman), 17
Sera of food-sensitive and normal children, Study of the significance of food antigen precipitins in (Douglas E. Johnstone), 206
Serotonin antagonist, cyproheptadine. II. The treatment of vascular-type headache and pruritus, A (Jerome Miller), 588
Serotonin and a serotonin antagonist in allergy (Frederick W. Grover), 233
Serotonin, in normal subjects and respiratory allergic patients, Urinary determination of 5-hydroxy-indoleacetic acid, catabolite of (Jorge Raul Vaccarezza and Adolfo Bochi), 448
Serum, ragweed-sensitive, Chromatographic separation of hemagglutination and reaginic activities of (Edwin G. Brown and Herman Friedman), 17
Seven specific types of urticaria. With special reference to delayed persistent dermographism (Richard D. Baughman and Otis F. Jillson), 248
Severe systemic reaction to demerol, A—Case report (Kenneth J. Johnson), 408
Shair, Hilliard M. and Grayson, Leonard D.: Atopic dermatitis III. The correct choice of antihistaminic agents, 168
Sheehan, Richard K. and Glaser, Jerome: Attempted laboratory correlation of clinical milk sensitivity by agar gel diffusion and tanned cell hemagglutination, 76
Sherwood, Henry, Epstein, Joseph I. and Kaplan, Harry: Evaluation of a long-acting oral antihistaminic decongestant (Rynatan®) for nasal allergies, 41
(Shiners, allergic), Significance of discoloration in the lower orbitopalpebral grooves in allergic children (Meyer B. Marks), 26
Shivpuri, D. N. and Dua, K. L.: Allergy to papaya tree (carica papaya linn), 139
Shulman, Robert: Humoral response to allergens of low molecular weight, 349
Significance, clinical, of wool as an etiologic agent of bronchial asthma by means of provocative testing, Determination of the (Norman S. Fastman and Jerome Glaser), 1

Significance of discoloration in the lower orbitopalpebral grooves in allergic children (Allergic shiners) (Meyer B. Marks), 26
Simon, S. William and Lipman, William H.: Metaproterenol—A new bronchodilating drug. Clinical report, 260
Soiffer, Maxwell, Gelfand, H. Harold, Cinder, Jules C. and Grant, Sidney F.: Evaluation of histamine-gamma globulin (histaglobin) in the treatment of various allergic conditions, 150
Skin reactions in pollinosis, A study of (Kenneth J. Johnson), 650
Skin-testing with natural foods and commercial extracts, A comparison of (Barry M. Josephson and Jerome Glaser), 33
Spitzer, Robert H., Kaplan, Morris A., Gutman, Arnold A. and Kalayil, Philip K.: Hyposensitization studies with a purified dwarf ragweed fraction, 494
Steroids and antihistaminics combined in long-term therapy of chronic bronchial asthma (M. M. El-Mehairy and N. El-Tarabichi), 10
Stroup, Garland, Nelson, Thomas L. and Greene, Charles T.: Cellulose-acetate membrane as a medium for demonstrating milk precipitins. Application to selected patients, 629
Studies, Clinical, with feather dust (Lawrence J. Halpin and Homer E. Prince), 577
Studies, hyposensitization, with a purified dwarf ragweed fraction (Morris A. Kaplan, Robert H. Spitzer, Arnold A. Gutman and Philip K. Kalayil), 494
Study of air-borne molds in southern and central Ontario, A collaborative (H. S. Barlow), 569
Study of skin reactions in pollinosis, A (Kenneth J. Johnson), 650
Study of the significance of food antigen precipitins in sera of food-sensitive and normal children (Douglas E. Johnstone), 206
Survey of teaching hospitals with regard to the recording of drug reactions, A (T. H. Aaron and N. A. Jampolsky), 256
Survey of the air in Indianapolis, Indiana, A weekly mold (Margaret Hotchkiss, Morris Scherago and Irvin Caplin), 563
Syndromes, Allergic granulomatosis and granulomatous-vascular (Jacob Churg), 619
Syndrome, The post-myocardial infarction, An autoimmune disease? (Albert M. Ziffer and S. D. Klotz), 698
Systemic reaction, A severe, to demerol—Case report (Kenneth J. Johnson), 408

T

Teaching hospitals, A survey of, with regard to the recording of drug reactions (T. H. Aaron and N. A. Jampolsky), 256
Technique for photographing hemagglutination reactions, A (John P. McGovern and Reuben G. Wagelie), 312
Testing, provocative, Determination of the clinical significance of wool as an etiologic agent of bronchial asthma by means of (Norman S. Fastman and Jerome Glaser), 1
Testing, skin, with natural foods and commercial extracts, A comparison of (Barry M. Josephson and Jerome Glaser), 33
